

## **Free Workshop on Sustainable Landscaping!!**

---

### **SUSTAINABLE LANDSCAPE MANAGEMENT TECHNIQUES FOR WATER QUALITY IMPROVEMENT AND RESOURCE PROTECTION**

Presented by Kate Venturini  
from University of Rhode Island's Outreach Center

Kate will talk about the latest sustainable landscape management tools for conserving natural resources and managing stormwater on residential lots through the:

- ◆ Design and installation of native plant systems
- ◆ Use of the latest sustainable landscape maintenance practices
- ◆ Incorporation of landscape site analysis into landscape design
- ◆ Use of low-impact development practices to treat runoff from impervious surfaces

These topics will be discussed as they relate to lawn care and general landscape management.

**Wednesday May 5<sup>th</sup>, 7:00 PM**  
**Barrington Library Auditorium**  
**281 County Road (Route 114)**  
**Barrington, Rhode Island**

Brought to you by the Barrington Conservation Commission,  
Barrington Department of Public Works, and Barrington Land Conservation Trust
